

2nd Notice
CHRS Canadian Electrophysiology Colloquium

September 10 & 11, 2010
Mont-Tremblant, PQ

Dear Colleagues,

On behalf of the planning committee I invite you attend the 7th Annual Canadian Electrophysiology Colloquium, to be held in Mont-Tremblant this September. For the first time, this meeting is sponsored by the Canadian Heart Rhythm Society. As before, this meeting allows EPs to come together to discuss topics of mutual interest in a relaxed and informal setting.

A planning committee consisting of myself, Sean Connors, Mario Talajic, Paul Dorian, Martin Green, Andrew Krahn, Brent Mitchell and François Philippon have chosen the topics for discussion based on feedback from last year's meeting and input from the CHRS Education Committee. Our guest speaker is Dr. G. Michael Vincent.

We plan on meeting on the mornings of Friday, September 10 and Saturday, September 11, with presentations and round table discussions, and with workshops in the afternoons. We will gather again in the evenings for dinner and informal discussions. For a detailed program, and to register, please click on this link: <http://www.xpertize.com/index.asp?mc=7&m=14>. If you have any question, you can contact Xpertize Meeting Management directly at 514-696-6699, or by email at xpertize@xpertize.com.

This will be a fully accredited educational meeting. Financial support in the form of unrestricted educational grants has been obtained from St Jude Medical Canada and Sanofi-Aventis Canada. Please note that participants are responsible for all travel and accommodation costs. Meals will be provided. The registration fee is \$250.00 for non-CHRS members, and no charge for CHRS members.

I sincerely hope that you will be able to join us for what I think will be a superb and worthwhile meeting.

Martin Gardner
Chair of the Planning Committee
